GLEN BROTHERS, Inc. GLENWOOD NURSERY

Rochester, N. Y.

For more than half a century "From Glen Brothers" has been a guarantee of first quality stock, true to name, handled and packed right, delivered to customers in the best possible condition.

Our Customers Are Our Best Advertisement

Our Products Surpass

Clinton, N. Y., May 5, 1924

Glen Bros., Inc.
Rochester, N. Y.

Gentlemen: I am enclosing herewith a post-office money-order for \$18.75 in payment for the nursery stock I recently purchased from you.

I wish to thank you for your splendid service, courteous treatment and unusually fine quality of stock. Your method of business department proved an innovation to me. Your products surpass any I have ever seen and it is certainly a pleasure to plant such trees. I have been disappointed so many times with trees and shrubs which I have purchased that it is very gratifying for once to get stock of even a higher quality than anticipated. Whatever the extent of your business is, it cannot be greater than such splendid and intelligent service merits. Your method of packing is faultless. Respt. yours, W. H. MOORE, 51 Fountain St.

We point with pride to the ornamental trees and shrubs in private and public grounds, parks and streets; the roses and plants growing and blooming in garden and house, the beaming orchards in every fruit locality for evidence in regard to how well we are succeeding in our endeavor to produce the best.

Nothing better illustrates the progress of our country, the advance in civilization its people are making, and the fact that we are learning to live better, than the greatly increased and continuing demand for nursery stock, both fruit and ornamental.

Located near the shores of Lake Ontario, with wide variations of temperature, at times 15 degrees below zero, the conditions are extremely favorable for the production of hardy, robust trees and plants. These conditions—with the soil best suited to produce the healthiest conditions of growth, namely, that solid, firm texture of the wood, with abundant fibrous root, so necessary to successful transplanting—enable us to offer the choicest nursery stock with entire confidence to planters in all sections of the country.

Our experience of more than half a century has taught us that good cultivation is of supreme importance, hence we spare no pains or expense to maintain the highest efficiency in this direction.

To the planter or purchaser of nursery stock, at least three things are indispensable; first, varieties true to name; second, healthy, vigorous, well-matured trees or plants, and third, careful and judicious packing, without which all may be lost.

We give to our packing and shipping careful personal supervision. And still further to protect our patrons, as well as ourselves against loss in this direction, we employ the most skilled and competent hands to assist us.

We aim to keep fully abreast of an enlightened and cultivated taste, in the introduction of new and valuable varieties of fruit, and valuable acquisitions in ornamentals; accepting with pleasure everything that has real merit, we shall with equal readiness discard and discountenance the sale of worthless humbugs.

By careful consideration of the wants of our trade and faithful attention to business, we are confident we shall continue to merit and receive a liberal share of the patronage of lovers and buyers of choice fruits and ornamentals.

If We Can Please Others, We Can Please You.

Mound, Minn., May 23rd, 1924

Glen Bros., Inc.
Glenwood Nurseries,
Rochester, N. Y.

Gentlemen: Enclosed please find check No. 289, \$163.25 in payment for Trees and shrubs supplied to Mr. A. C. Loring. Everything came through in fine shape, and we are more than pleased with them. Thanking you, Yours very truly, GEO. H. INSTONE.

Seneca Falls, N. Y., April 18, 1924
Glen Bros.

Rochester, N. Y.
Dear Sirs: The shrubs ordered from you arrived safely in fine condition, and I am very much pleased with them; have them planted and they are looking fine.

By all appearances the Forsythia from you will bloom before the one I've had for some years, yet they look like the same variety near as I can tell comparing bark, form, etc. Thank you very much for the extra and the fine strong plants. Respectfully, MISS ETHYL FRYE.

Big, Juicy Grapes for Delicious Grape Juice

Nothing Quite So Sure to Grow, Nothing Quite So Sure to Bear,
Nothing Quite So Sure to Please Every Taste

Extra Heavy 3-Year Old Vines

Planted This Spring Should Produce Fruit Next Autumn

Best Varieties for Making Grape Juice and Red Wine

Concord (black) Large and handsome, very hardy, productive and reliable; succeeds well over a great extent of country, and is one of the most popular market grapes.

Ives (black) Bunch extremely large, shouldered, compact, handsome; Berry—large, tender, juicy,

sprightly vinous, rich, sweet without pulp. Vine is vigorous, healthy, hardy.

Moore. Bunches larger; berries large, round, black with a heavy bloom; pulp of good quality; vine notably resistant to disease, very hardy, withstanding temperatures of 20° below zero without injury.

Best Varieties for Eating Fresh

Campbell's Early (black) Clusters large and handsome; berries large, nearly round, black, with light purple bloom; flesh rather firm, but tender; quality rich, sweet, slightly vinous; a strong and vigorous grower.

Brighton (red) Flesh rich, sweet, and of the best quality, equal if not superior to Delaware; ripens early. Productive and vigorous.

McPike. Bunches large and compact, like its parent, Worden; berries very large, black; pulp tender and very juicy. Healthy and hardy.

Green Mountain. Bunches long, compact and shouldered; berries oval, greenish white; pulp tender, juicy, very sweet and rich; vine hardy, vigorous, healthy, and very productive. Ripens three weeks earlier than concord.

Niagara (white) Bunch medium to large, compact, occasionally shouldered; berry large, roundish, uniform; skin thin but tough, pale green, changing to pale yellow, with a thin whitish bloom; flesh slightly pulpy, tender, sweet; ripens with the Concord.

Imperial Epineuse Plum

"GLENWOOD GROWN"

Purple, thin skin, golden flesh, juicy, sweet, tender

A real California plum—100% perfect. **Your first taste will be a revelation.** "Cyclopedia of Hardy Fruits" by Prof. U. P. Hedrick, Vice-Director and Horticulturist of the N. Y. Agricultural Experimental Station, describes it as follows:

"The fruits of Imperial Epineuse are not surpassed in quality by those of any other plum; moreover, they are most pleasing in appearance, being large, beautiful in shape, and made further attractive by a handsome reddish-purple color which is lighter or darker according to the exposure to the sun. The tree-characters are exceptionally good; the crop is so borne on the main limbs as to be protected from the sun; and the tree is particularly large and vigorous, its strong growth being a striking characteristic of the variety. The variety is much grown in California, and should be grown in all plum regions. Wherever tried in the East, fruit and tree are liked, and the variety is certain to grow in popularity in eastern orchards for both home and market plantations."

PRICE—Strong 2-year-old trees, 5-7 ft., \$2.00 each, \$20.00 per 12

(½ Actual Size)

Large Size—Delicious Flavor

Rochester Peach

A Thoroughbred—It's All Peach

Frequently bears first season—Ripe in August. Very large; orange-yellow, blushed with deep dark red, mottled; flesh yellow, stained with red near the pit, very juicy, melting, highly flavored; freestone; tree large, vigorous, upright-spreading, productive. Middle of August. Rochester is one of the hardiest peaches known; will stand 16° below zero and produce a full crop. Do you know of any other that will do it? FOR EATING FRESH OR CANNING. Every year is a Rochester year—No off seasons.

Fred Mills, Grove City, Pa., writes: "While eating some luscious peaches from the trees I purchased from you, I thought possibly you might be interested in these facts. The trees were shipped in April, 1922. From one of the trees this year we have taken 37 fine large peaches. This tree stands about 11 feet high, the spread of the branches being fully 6 feet, and had it not been for late frosts we would have had easily a peck or more from each tree. We think this is a most unusual occurrence and believe it speaks unusually well for the quality of trees sent out by your nursery. I might add that the quality of the fruit is wonderfully fine."

PRICES—Medium Size, \$1.00 each, \$10.00 per 12; Large Size, \$1.50 each, \$15.00 per 12; Extra Large Size, \$2.00 each, \$20.00 per 12

Delicious Peaches last of August

Dwarf Apple Trees

Three Year Old Trees

Come into bearing immediately, producing same quality and size fruit as standard trees. Excellent for planting where land is limited—may be planted as close as 8 feet apart. Trees reach height of about 15 feet at maturity.

One each of the following six varieties for \$6.00

Red Astrachan. Large; deep crimson; juicy, rich, acid; productive. August.

Yellow Transparent. Medium size; pale yellow; pleasantly acid, good. July and August.

Baldwin. Large; deep red; crisp and juicy; vigorous grower; heavy bearer. November to March.

Delicious. A relatively new apple, ranking high as a variety for commercial or home orchards. Large; brilliant dark red; flesh fine-grained, crisp, melting, juicy, with a delightful aroma; splendid keeper and shipper; tree bears heavy crop, annually, a profitable sort to grow. November to February.

Northern Spy. Large; bright red spread with delicate bloom; flesh tender, rich, delicious; bears well. November to March.

Wealthy. Medium to large; deep red, juicy. October to January.

Plant This Spring and you will get some fruit next season

One of our Dwarf Apples 2 years after planting

EXTRA LARGE Super-Size Fruit Trees

Trees six to eight feet in height, three to four years old, with well branched tops, are now available for those who want trees larger than are usually offered by nurserymen and at but slightly greater cost.

We offer them in the following varieties:

Apples

Yellow Transparent, season August.
Maiden Blush, season September to October
Oldenburg, season September.
Baldwin, season November to March.
Delicious, season November to February.
McIntosh, season November to January.
Northern Spy, season November to February.
Wealthy, season October to January.
Wolf River, season October to December.

Anjou, season November.
Keiffer, season October to January.
Seckel, season September and October.

Plums

Bradshaw (dark violet red).
Grand Duke (purple).
German Prune (purple).
Green Gage (yellow).
Abundance (cherry red).
Burbank (red).
Wickson (carmine).

Pears

Bartlett, season September.
Clapp's Favorite, season August and September.
Angouleme, season October.

Sweet Cherries

Dikeman (black).
Napoleon (pale yellow, red cheek).
Tartarian (black).
Governor Wood (yellow, red cheek).

Price \$3.00 each, \$30.00 per 12, \$200.00 per 100

Super Size Cherry Trees in Nursery
6 to 8 feet Tall

Just add Sugar and Cream

Ye Old Fashion Blueberries

Delicious Three Times a Day

With Sugar and Cream for Breakfast—Blueberry Dumplings for Luncheon—Blueberry Pie for Dinner.

The annual Blueberry crop sells for millions of dollars, yet there are comparatively few people who have ever tried growing Blueberries in their gardens.

Try a Dozen of our Large Bushy, Collected Plants, this Spring Fruiting Season Early July 'till Late Summer.

Nor should the ornamental value of Blueberries be overlooked. Prof. Bailey says:

"In the Spring the young shoots and leaves are a rich bronzy red, later the clusters of long, white flowers, followed by clusters of dainty pink buds. In winter the red bark creates a charming tracing of red twigs against the snow. Rarely does a plant or shrub combine such exquisite beauty with a fruit than which there is none more delicious. It is one of the most valuable species both for fruit and as an ornamental shrub. It thrives in the garden and is readily susceptible to improvement by cultivation."

Strong, bushy plants,
2 to 3 feet.
PRICE—\$2.00 each,
\$20.00 per dozen

Such Fruit is Worth 40c. Per Quart

Improved Thornless Dewberries

Tested ten years. Absolutely Thornless. The fruit is as easy to gather as grapes, neither gloves nor courage needed.

Fruit is jet black, of large size and real dewberry flavor. Should be planted in every garden. Profitable grown for market.

Culture directions—Use short, stout stakes, driven at the end of each row of canes, with a cross-piece 18 inches long nailed to each stake, 2½ to 3 feet from the ground. On the top, near each end of these cross-pieces, drive a stout nail, slanting toward the stake, upon which to catch a wire. Two lines of No. 14 galvanized wire, one on each side of the row, are fastened to one end of the stakes and run on the ground between the rows to the other end stake. These wires are now drawn as taut as possible and securely fastened to the other end of the row. The wires are now raised and caught in the nails, thus holding all the canes closely together in the row.

PRICE—\$5.00 per dozen, \$30.00 per hundred

A Bearing Apple Tree is a Lifelong Investment

HEAVY 3-YEAR-OLD Washington Asparagus

GROWN FROM PEDIGREED SEED

For quick results plant these extra heavy roots

A new Rust Resistant Variety, developed by U. S. Department of Agriculture

The simplest thing in the world is to make an asparagus bed. Prepare a place of fine, loamy soil, to which has been added a liberal dressing of rich manure. Set in rows, eighteen to twenty inches apart, with the plants ten to twelve inches apart in the rows. Make a small mound of the soil, over which the roots should be spread and then cover the plants with about six inches of soil. After planting mulch with manure, straw or leaves.

PRICES

25 plants	\$2.50	100 plants	\$ 7.00	500 plants	\$28.00
50 plants	4.00	250 plants	15.00	1000 plants	50.00

Remember—you risk nothing. If upon receipt of shipment you find that the plants are not the finest and largest 3 yr. asparagus roots you have ever seen, wrap them up and return to us, and we will refund your money without question.

Raspberries, and plenty of them, from June to October

THE NEW Cortland Apple

For the first time we offer this new and grand variety. Prof. Hedrick describes it as follows:

"The fruits of Cortland are so similar to those of McIntosh that the two varieties are certain to be confused, but each is distinct and the differences are all in favor of Cortland so that the apple is better than that of McIntosh, impossible as it may seem. The fruits of Cortland ripen a little later than those of McIntosh, keep longer, are larger, and brighter in color. The shape, taste, and flesh-characters of the two are almost identical. The trees are much the same. Cortland is an improved McIntosh and as such is sought for in New York and New England where McIntosh is chiefly grown. The variety is a cross between Ben Davis and McIntosh made at the New York Agricultural Experiment Station."

We offer beautiful top worked trees at \$2.00 each.
Not more than 10 trees to a customer.

As Easy to Grow as 2+2

La France Raspberry EVERBEARING

"The June 'till frost Raspberry"

Big, rich, sweet, juicy berries from June till frosts. **LaFrance** has an enviable record, having been awarded certificate of merit by American Institution of Science; Mass. Horticultural Society; N. Y. Horticultural Society; N. Y. Florists' Club; Horticultural Society of Westchester County, Tarrytown.

BEST IN SIZE, TASTE AND PRODUCTIVENESS

The berries are double size, firm, juicy, of real raspberry flavor, all "Meat", not all seeds, commencing to fruit in June and continuing through the summer until fall frosts have killed all vegetation.

LaFrance was first sold at more than \$1.00 per plant, but we now offer strong 2-yr. fruiting plants at

\$3.50 per 12, \$20.00 per 100.

Six Flowering ALL DIFFERENT Shrubs for \$2.50

Spirea Van Houttei. Grows about 6 feet high with arching branches, dark green leaves, and numerous clusters of white flowers.

Hydrangea. The hardiest and most popular Hydrangea, it has greater adaptability to climatic variations than the others, and in July and August its massive plumes of pink flowers bend the branches with their weight.

Honeysuckle. Large, half evergreen shrub, with long, slender, recurving branches and bright green broadly ovate leaves; flowers creamy white or light yellow, fragrant, expanding early in spring. Very desirable.

Spirea Anthony Waterer. Compact, free-flowering variety, upright branches, bearing a rich profusion of bright crimson flowers in dense corymbs. Blooms till late autumn.

Syringa. Hardy, vigorous, upright-growing shrub, with arching branches; large, handsome foliage; flowers fragrant, pure white or cream-white in dense racemes. An old favorite.

Forsythia. Graceful shrub, with branches drooping to the ground, where they often take root; the branches are literally covered with the golden yellow flowers in early spring before the leaves appear. Good cover for steep slopes, walls, fences and arbors.

Plant them this Spring and they will reward you by Blooming this Summer

Our Roses Are Very Hardy

Ten Choice Hardy Roses

Planted this Spring will Bloom this Summer all Strong 2-yr. Old Blooming Plants

1 Los Angeles. A 1917 Rose which is said to be one of the finest ever introduced. In color it is a luminous flame-pink, toned with coral and shaded with translucent gold at base of petals. The buds are long and pointed, expanding into enormous, intensely fragrant flowers which retain their color until the last petals drop.

1 Gruss An Teplitz—Crimson Hermosa The clusters of fine long buds and magnificent bright crimson flowers, with fiery red shading, make a brilliant show all summer, and its beauty is still further enhanced by the lovely green foliage which in the young growth is a dark, rich bronze. It is very fragrant, free-blooming, hardy and vigorous.

1 Killarney Pink. The buds are very long and pointed; the flowers are a lovely flesh, shaded with white, suffused pale pink, and are deliciously perfumed. Vigorous. A lovely and distinct Rose of great merit.

1 Magna Charta. Large, full, well-formed flowers of bright pink; very fragrant. Exceedingly vigorous.

1 Geo. Ahrens. This is the wonderful pink American Beauty. The growth and make-up of the plants is superb, while the delicate pink color is unapproachable. One of the showiest Roses in our collection.

1 J. B. Clark. Robust in growth with clean heavy foliage, flowers of large and superable construction; deep scarlet over-laid crimson.

1 Frau Karl Druschki. The buds are handsome, long-pointed, opening to very large, cupped flowers of pure, snowy white and great substance. A very vigorous grower and exceptionally hardy; very free and continuous bloomer.

1 John Hopper. Bright rose with carmine center; large and full. Very profuse bloomer.

1 Persian Yellow. A beautiful deep golden yellow Rose of large size and fairly full. Vigorous grower.

1 Prince Camille de Rohan. One of the best and most useful dark Roses. The flowers are large, full, well-formed, of a deep, velvety crimson, shaded with maroon. Very free flowering and vigorous.

This magnificent assortment including one Los Angeles for \$10.00

SIX EXQUISITE PEONIES

No longer is this beautiful flower, equalling the Rose in brilliant color and perfection of bloom, neglected. It has risen in public demand until it now has first place, and deservedly so.

Among the most hardy, showy, and easily grown of all garden flowers; the plants are practically immune from the attacks of insects or diseases; the flowers are the largest of all double-flowering perennials, and each succeeding year adds to the vigor of the plant and to the abundance and perfection of the blooms. The varieties that we name below we have selected with great care as being excellent specimens of the types and colors they represent.

Edulis Superba. Bright mauve-pink; large, rather flat, crown type; strong, upright grower, free bloomer; fragrant; early.

Queen Victoria. Milk-white guards tinted flesh; the center creamy-white with crimson spots; bomb type; free blooming; fragrant; mid-season.

Rubens. Very dark crimson; large, semi-double type; fragrant; early. Extra fine variety.

Canari. Yellowish; globular bomb type; fragrant; late.

President Roosevelt. Semi-Rose type; color, deep rich, brilliant red; mid-season.

Festiva Maxima. Pure white, flecked with carmine; very large rose type; free-flowering; fragrant; medium early.

Good strong divisions with 3 to 5 eyes. This collection of 6, all different as described, \$4.00

They rival the rose in beauty and fragrance

English Walnuts, Butternuts, Black Walnuts

7 Year Old Bearing English Walnut at Glenwood Nursery

English Walnut. Every English Walnut tree we sell was started from seed produced from a bearing tree growing in this locality—every tree is guaranteed to be a “Glenwood Grown” tree, hence our trees are very hardy. Such trees are the only safe trees to plant in Northern latitudes. Neither our young nursery trees nor our six and seven year old bearing trees have ever shown the slightest evidence of injury from winter temperatures of eighteen to twenty degrees below zero.

Plant a few of these trees this Spring. In your available space a few hardy, vigorous English Walnut trees will prove valuable for decoration, shade, and allow a household supply. The smooth bark is light gray in color, and the leaves are long, deep green and waxy. The English Walnut is a rapid grower.

Sizes and prices:

Size	Each	Per 10
2-3 ft.....	\$1.25	\$10.00
3-4 ft.....	1.50	12.50
4-5 ft.....	2.00	18.00
5-6 ft.....	3.50	30.00
6-8 ft.....	5.00	

American Black Walnut. For roadside planting and for reforestation, we have extensive plantings of these valuable trees to offer at the following prices: 3-4 ft., 75c each; \$8.00 per doz.; \$60.00 per 100. 6-8 ft., \$1.25 each; \$12.00 per doz.; \$90.00 per 100. Extra large trees, 8-10 ft., \$3.00 each; \$30.00 per doz.; \$200.00 per 100.

Butternut. (*Juglans cinerea*). One of the finest native nut trees, growing occasionally to a height of 100 feet and spreading in proportion. The wood is much valued because of the beautiful finish possible in cabinet work. The large, elongated nuts are rich, sweet and of delicate flavor, very nutritious. 5-7 ft., \$1.00 each; \$9.00 per doz.; \$60.00 per 100. Extra large specimen trees, 8-10 ft., \$3.00 each; \$30.00 per doz.; \$200.00 per 100. 10-12 ft., \$5.00 each; \$50.00 per doz.

Burbank Giant Crimson Rhubarb

A Luther Burbank Creation

Extra large, of fine bloom, and crimson clear through, this new variety of appetizing “pie-plant” should be in every garden, and will be when known. Plant a few this fall along beside that you now have growing in your garden and note the difference. **Burbank Giant Crimson** is superior in size and quality to any variety we have ever tested. It is an early variety, without being in the least tough or stringy, with a mild sub-acid flavor. Largest and best of all for market or home use.

Plant this Spring in good garden soil, manure well, and have delicious pie and sauce.

PRICE—For strong roots, 2 year old, 50c each, \$3.00 per dozen.

Rhubarb—Pie Plant—whatever you wish to call it; there is nothing like it for pie and sauce—it's healthful, too.

Six Showy Lilacs

The Famous Highland Park Varieties

Lilacs grow everywhere—anyone can have lilacs—plant more lilacs but plant the choice varieties.

Our collection is admirable. We were helped in the selection by Mr. John Dunbar, famous as the assistant-superintendent of Highland Park, Rochester, N. Y., containing one of the finest collections if not the finest in the whole world. In the last five years, we have sold at retail nearly 25,000 plants, shipping to nearly every state in the Union. We have selected the following six choice varieties, which we have named "Highland Park Collection." We offer the collection, composed of one each of the varieties described, to a limited number of customers. Planted this Spring, they should bloom this season as ours are strong plants, two to three feet high, well rooted and branched. Order now before stock is exhausted.

De Miribel. Single, large panicles of bluish violet color; very dark and rich, extra.

Pasteur—Single, vinous red turning to black red, one of the best dark sorts.

Rai Albert. Late flowering sort—of great value for cut flowers—buds purple, shaded mauve when expanded.

Chas. Joly. The opening flowers are of a deep wine red and change to a light purple red. One of the best double, dark flowering lilacs.

Mme. Abel Chatenay. Double; sweetly scented pure white flowers in large panicles.

Pres. Loubert. Large double flowers, purplish red—a distinct shade.

Special price for this collection, \$10.00. Single Plant \$2.00 each

Fragrant, of Many Colors, they are Most Adorable

Plenty of Bloom This Summer From Plants You Set This Spring

Irises

Every One Should Have Them

Coming into flower about the middle of June, and continuing for five or six weeks, they fill in a period when flowers of this attractive type are particularly welcome.

Planted this Spring will bloom this season

Could one ever forget the striking beauty of the Iris? Plant them generously—suited to all locations. The following 6 varieties are aristocrats:

Commodore Perry, dark violet red.

Painted Lady, white richly suffused and striped with bright pink.

Mrs. Harding, cerulean blue with golden center from which radiate clear white lines.

Mahogany, purplish mahogany-red.

Purple and Gold, rich violet-purple with white petaloids tipped violet.

Royal Purple, dark purple overlaid with dark blue; yellow blotches.

This assortment of six varieties, \$3.00

Let Us Suggest a Hedge of **Barberry Thunbergii** JAPANESE BARBERRY

One of the most ornamental and valuable new shrubs; remarkable for its dense spreading growth, its hardiness and attractive appearance throughout the year. One of the earliest to start in the spring; before most other plants have awakened from their winter sleep it is covered with the greenness of its dainty little leaves and a few weeks later with myriads of small, pale yellow flowers, followed by an abundant crop of fruit, ripening into scarlet berries which remain to make the bush a conspicuous and attractive object all winter. The brilliant autumn coloring of the leaves, which assume the brightest shades of orange, scarlet and crimson, is not the least of the attractions of this interesting bush. It is one of the best plants for shrubbery borders, for edging and for hedges. By trimming it can be kept of any size or shape desired, or if allowed to grow without interruption it will make a defensive hedge four or five feet high, and six or eight feet broad. Its thorns though not long are very sharp, and severe enough to bar all but the most determined intruders. Set one foot apart.

Prices—12-18 inch \$3.00 per 12; \$20.00 per 100
18-24 inch \$4.50 per 12; \$35.00 per 100

A Riot of Color in Early Summer

Six Beautiful Hardy Azaleas

For Outdoor Planting

All Plants 12-18 inches High Should Bloom this Summer

Azalea Arborescens. Flowers fragrant white—foliage brilliant red in Autumn.

Azalea Canescens. Beautiful pink flowers in Spring—a rare and very fine species.

Azalea Lutea (Flame Colored Azalea.) Gorgeous flame colored azalea varying from orange to canary—a free bloomer.

Azalea Nudiflora. Very handsome free flowering shrub, deep pink; early and profuse—very showy.

Azalea Vaseyi. Delightful shell pink, blooms in early Spring—wonderful colored foliage in Autumn.

Azalea Viscosa. A late white blooming species—extra fine for borders.

This splendid assortment, only \$10.00

Hardy Native Orchids

Universally Admired

There is a wealth of beauty in this little-cultivated class of plants. The sorts offered below are quite hardy, and succeed best in a partially shaded position in a deep, moist soil composed of equal parts of loam, leaf-mould and sand.

Moccasin Flower. Flowers rose-purple—showy.

Large Yellow Ladies Slipper. Large showy bright yellow.

Showy Ladies Slipper. Cluster of beautiful white and pink flowers.

Rattlesnake Plantain. Flowers white, foliage white.

Yellow Fringed Orchis. Beautiful yellow flowers—fine.

Purple Fringed Orchis. Purple flowers—fine for moist location.

The six varieties
described above
for \$5.00

The More Orchids One Has the More One wants

An assured favorite with the whole family

THE THREE BEST STRAWBERRIES JUMBO—SUNSET—TABLE QUEEN

JUMBO is just what its name implies—a mammoth plant and a whale of a berry. 64 quarts picked Nov. 7, 1924 sold at 50c per quart. Jumbo is not classed as an ever-bearer but an enormously productive variety of the regular season. We regard it as the best strawberry on the market today.

SUNSET—Plant extremely robust, will grow on all soils and delights in heavy clay. The blossoms come late and resist frost. Berries, deep red, good fresh or cooked. Very productive.

TABLE QUEEN—A high class berry for any purpose. For dessert it charms and satisfies the palate; it is delicious and appetizing for the sick room; adds a delicate relish to meats, cereals, and white bread; unrivalled as a short-cake berry. It is the one berry for those with weak digestion. Bright red, medium to large, vigorous vines and production.

50 of each variety of these real quality and high yielding plants **50 Jumbo—50 Sunset—50 Table Queen** for \$10.00.

Money promptly refunded if not satisfied.
